IMPORTANCE OF TEACHER

Teacher is a person who is more than our words can describe. He /She is the one who moulds our character and grooms us. They shape us in each and every aspect to face the toughest situation in this competitive world . As a skeleton supports our body , a teacher lays foundation to our character , discipline , education etc. Teachers are the persons with lot of Love , Respect, Responsibilities etc and they are the real role models of our lives . They guide us in our difficult times and further rectify our mistakes to help us to achieve success . They are the source of knowledge to the students . To conclude, we can just say that “ A teacher is like a candle , it glows , melts and shows the way in the darkness .” We bow our heads to all the Reverend teachers in the school, across the world and to my omnipresent teacher – **“BHAGAWAN SRI SATHYA SAI BABA”**

Where there is a will there is a way

There was a girl named Shailaja, born in Yadadri of Nalgonda district. She was the third child to her parents. As she was born and brought up in a village, she faced problems like lack of medical facilities, proper schools etc. When she was 13, she decided to become a doctor and asked her parents to send her to town school for better education. She finished her SSC with 90 percent marks. She wanted to join BiPC course to get good rank in EAMCET to pursue MBBS. But her grandparents opposed to it as it was expensive. They didn't like the idea of the girl going for higher education. But she requested and convinced them. Finally she stayed at her aunt's house in Hyderabad. She worked very hard, but when she was about to write EAMCET exams, her mother expired due to cardiac arrest. This was a big blow to her. In spite of all these obstacles, she got a very good rank in the exam and joined "Siddhartha Medical College". After that she finished her MD in Internal medicine and presently she is a famous doctor in Dubai. **"SHE IS NOT ONLY MY INSPIRATION BUT ALSO MY AUNT".**
